

North Memorial

The **FELEMOVICIUS FAMILY FOUNDATION** fund was established in 2008 to help educate young physicians. We look forward to hosting young foreign physicians, who are looking to come to the United States to improve their education and then return to their countries to make a difference in their local communities.

Dr. Luis Felemovicius was born in Cuernavaca, Mexico in 1940. He completed a Pediatrics/Neonatology Residency in Evanston, Illinois, from 1965-71. He returned to practice medicine in Mexico for 25 years. He was an advocate for the health care of children. He died in 1988 at the age of 48.

Dania E. Felemovicius was a Child Psychologist in Mexico City. Her passions included the education and well being of children. She died in 2008 at the age of 28.

The **FELEMOVICIUS FAMILY FOUNDATION** intends to fund the traveling expenses, housing costs and to provide stipends to young physicians who will be visiting our country to improve their education and expand their vision. They will then return to their communities ready to make a difference.
